

Memorandum

Date: March 6, 2007

To: Honorable Chairman Bruno A. Barreiro
and Members, Board of County Commissioners

Agenda Item No. 12(A)(4)

From: George M. Borges
County Manager

Subject: People's Transportation Plan (PTP) Amendment to Include a Public Education Campaign Including Public Schools Promoting Short-term Solutions to Alleviate Traffic Congestion in an Amount Not to Exceed \$350,000

RECOMMENDATION

It is recommended that the Board of County Commissioners approve the attached amendment of the People's Transportation Plan (PTP) to include a public education campaign including the Miami-Dade County Public Schools promoting short-term solutions to alleviate traffic congestion in an amount not to exceed \$350,000. This amendment was recommended by the Citizens' Independent Transportation Trust (CITT) on January 31, 2007, in response to a request on behalf of the MOVN partnership.

BACKGROUND

Since early 2006, an informal public-private partnership known as MOVN (Meeting Our Vehicular Needs) has been working to implement short-term solutions to alleviate traffic congestion. The working group includes private citizens, members of the County administration, representatives from the Florida Department of Transportation, Miami-Dade Expressway Authority, various law enforcement agencies and a number of municipalities around the County, among others, who have worked closely with elected officials to bring the initiative to fruition. To date, the group has met on a monthly basis and has successfully implemented a number of strategies to further its goal. Among these has been the establishment of a web page (www.miamidade.gov/movn) whereby suggestions from the public are gathered, analyzed and implemented when feasible by the Public Works Department (PWD). Since the launching of the site in August 2006, nearly 1000 suggestions from the public have been emailed to the PWD.

Another successful initiative included a July and December enforcement campaign to prevent the blocking of intersections which was made possible through the cooperation of law enforcement representatives around the County. During these months, County and municipal Officers were stationed at designated intersections to enforce this important law and promote driver awareness. Over 3,000 citations were issued for the July effort which included this and other infractions; in addition, 134 arrests incidental to this effort were reported at these intersections (33 felonies, 56 misdemeanors, 44 traffic arrests, and 1 DUI –Driving Under the Influence). It was in part due to the success of these campaigns that MOVN has undertaken a larger public education campaign. Since short-term traffic relief is the ultimate goal of this campaign, it is now requested that the PTP be amended to allow the use of Surtax funds for this purpose. Although the PTP shares MOVN's goal of traffic relief, Exhibit One of Ordinance 02-116 limits funding for marketing and promotions to transit uses.

The Communications Department has been working with a subset of the MOVN working group to develop a public education campaign that would focus on two messages: "Don't Block the Box," and,

"Move It, Yes You Can." The "Don't Block the Box" effort will build on the success of the July and December law enforcement campaigns to keep intersections clear of vehicles and allow the free flow of traffic during rush hours. The marketing of this message will be coupled with a renewed effort by law enforcement for the promotion period. "Move It, Yes You Can" is expected to educate motorists that they must make every reasonable effort to move a disabled vehicle so as not to obstruct the regular flow of traffic (as long as the vehicle is moveable and there are no injuries). Failure to move vehicles accounts for 40% of all secondary accidents. The campaigns will also include information about the benefits of adhering to each of the laws and the fines motorists risk by not doing so. In response to the amendment made to the original request by the CITT during their consideration of the item, Communications will also work with the Miami-Dade County Public Schools to promote these messages to their student population.

The campaigns will be accomplished via a highly targeted advertising campaign utilizing billboard, radio, and a mix of print as well as other communication mediums such as ads on County transit buses, bus passenger shelters, magazines, newspapers, newsletters, public areas and potentially other communication outlets such as 311 radio shows and the County's web portal and government access television station. Alternative publicity mediums such as major insurance company newsletters, movie theater screen advertisements, posters within Department of Motor Vehicles (DMV) offices, billboards near toll booths and the usage of expressway electronic message boards is currently being explored by Communications staff. The public education campaigns, which will be administered by Communications Department staff, will be done in English, Spanish and Creole with each campaign running for approximately four to six weeks.

Miami-Dade County has a population of approximately 2.4 million which includes 1.8 million registered drivers and an estimated 1.4 million registered vehicles. According to a study by the Texas Transportation Institute, traffic congestion in Miami-Dade County currently ranks as the sixth worst in the nation, costing an estimated \$3 billion dollars per year or \$1,800 per person annually. By the year 2025, the projected County-wide population is expected to be well over 3 million. If successful, raising awareness of basic issues related to each of these educational messages can be another meaningful, short-term traffic solution made possible through the PTP.

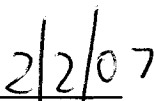

FISCAL IMPACT

The funding for this project would be limited to \$350,000 from the Surtax. This amount is not anticipated to have adverse impacts on other planned PTP projects included in the December 2006 Pro Forma.

The Communications Department, PWD, the various law enforcement agencies around the County and all of the MOVN partners have provided and will continue to provide countless hours of in-kind support through staff efforts in designing and executing these educational campaigns. The use of the Surtax funds will be limited to payment of third party media outlets.

Assistant County Manager
